

Grade L Chain

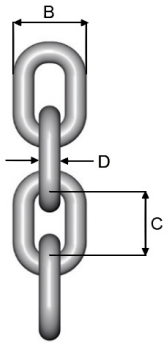

AS2321 · Short link

Part Number	Nominal Size (D)	M/500KG	Inside Length (C)	Working Load Limit		External Width over the Weld (B)	Breaking Force	Link Marking
				5:1 (Lifting)	4:1 (Mooring)			
	D mm	mtr	C mm	WLL kg	MWL kg	B Nominal	MBL KG	
F-GL-006	6	560	18	400	500	21.6	2000	HDJ-L
F-GL-008	8	340	24	640	800	27	3200	HDJ-L
F-GL-010	10	210	30	1008	1260	34.3	5040	HDJ-L
F-GL-013	13	130	39	1680	2100	43	8400	HDJ-L
F-GL-016	16	80	48	2560	3200	54.9	12,800	HDJ-L

Manufacturing in a short link configuration meeting the requirements of Australian Standard AS2321.

Highest quality lower tensile steel available for lifting purposes with a design factor of 5:1.

Also recommended for use in fathom chain and mooring applications and is available with an increased Maximum Work Load (MWL) based on design factor of 4:1. Marked with HDJ-L.

Grade L Fathom Chain
